<https://medium.com/@zero.zhang/what-is-blockchain-what-does-it-mean-blockchain-technology-27a72834292c>

Blockchain technology is a distributed ledger technology that allows for secure and transparent transactions. It is a decentralized system where data is stored across multiple nodes in a network. This makes it resistant to tampering and fraud. Blockchain is used in various industries, including finance, supply chain, and healthcare. It is a revolutionary technology that is changing the way we do business.

Blockchain is a distributed ledger technology that allows for secure and transparent transactions. It is a decentralized system where data is stored across multiple nodes in a network. This makes it resistant to tampering and fraud. Blockchain is used in various industries, including finance, supply chain, and healthcare. It is a revolutionary technology that is changing the way we do business.
